SK-CT90 Table Top Capping Machine

The SK-CT90 is designed as a bench mount, semi-automatic cap tightener that tightens most continuous thread caps. This completely air powered capper controls torque by air regulator. The Tightener assembly is attached to a support stand that can be mounted to tabletop or semi-automatic filler.

Features include:

- Air Operated up to 30CFM
- Cap sizes up to 110mm
- Container Sizes:
 - Up to 6" diameter
 - Up to 13" high
- Air Requirements: 4cfm @ 70 – 90 psi
- Overall Dimensions:
 - Length – 13"
 - Width – 10"
 - Height – 34"
